Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Explain how short-form recommendation systems, audience signals and responsible generative AI practices shape video decisions.
- LO2: Use structured prompts to generate audience-relevant ideas, hooks, scripts, captions, hashtags and a coherent content plan.
- LO3: Create and edit a brand-consistent vertical video with generated visuals, voiceover, captions, sound and a documented rights check.
- LO4: Prepare, publish, analyse, repurpose and scale short-form video content through an evidence-led production workflow.

Learning Reinforcement

- Every topic is followed by hands-on labs that learners complete on their own machine.
- Each lab ends with a 'Test it' verification step so learners can confirm their own progress.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- Each topic closes with a recap mapped back to the course learning outcomes.
